

# Kingston Hospital Clinical Update

## Meet the Dermatology Team

*"We have a comprehensive Dermatology service for the management of acute and chronic skins disease. The service is delivered by a combination of consultant dermatologists, with the support of a specialist skin cancer nurse. We provide outpatient clinics at the hospital as well as other community sites to bring care closer to the patients home."*

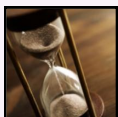

Dr Janakan Natkunarajah - Consultant Dermatologist and Clinical Lead

### **Expanded Urogynaecology Service**

We have increased our provision of Urogynaecology services in order to meet greater demand. [Please click here for more information...](#)

### **New 2-Week Wait Referral Process**

A new process has been agreed between Kingston Hospital and St George's Hospital for 2-Week Wait referrals. [Click for information...](#)

### **Direct Access to Ophthalmology Minor Ops**

Minor eyelid lumps and bumps can now be booked into dedicated, one-stop minor ops clinics, rather than oculoplastic clinics. [Click for more information...](#)

### **Private Maternity Services from BMI**

A number of great benefits are available for your patients that choose to use private maternity services from BMI. [Click here for more information...](#)
