

Kingston Hospital Clinical Update

Expanded Cardiology Service

"We aim to provide rapid access, high quality cardiology services for our local population, and provide close links with local tertiary centers through our MDT and Arrhythmia Service. We also wish to support education and self-management for patients and support for community services (via the Kingston Community Cardiology Service)".

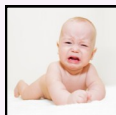

Dr Tapesh Pakrashi - Consultant Cardiologist and Clinical Lead

New Urology 2-Week Wait Clinic

A new dedicated Urology Two-Week-Wait clinic is now running weekly in our purpose built Albany Unit. [Click for information...](#)

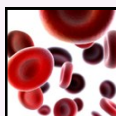

Tongue Tie Clinic

We are introducing changes to our Tongue Tie service that will be live from 21st September 2015. [Click here for more information...](#)

Online Maternity Referrals

GPs are now invited to send Maternity referrals directly via the website:
<http://www.kingstonmaternity.org.uk/your-pregnancy/maternity-referral-form.aspx>

New Anti-Coagulation Referral Form

We have a new form for Anti-Coagulation patients. Please use this henceforth.
