CQC Want Your Views

The CQC are inspecting Kingston from 12 January 2016. Before an inspection they consider a lot of information to help them decide what we need to look at during the inspection. Patient experiences of care, and those of their family and friends, will help us to do this. We want to hear what you think. Tell them about your experiences of care and find out more about the inspection here. www.cqc.org.uk/content/kingston-hospital-nhs-foundation-trust-please-share-your-experience

Monitor has closed its investigation into Kingston Hospital NHS Foundation Trust

We are very pleased to announce that Monitor has decided to close its investigation into both our finances and A&E performance and will not be taking any formal regulatory action. Everyone across the organisation and our partners have worked extremely hard over the last six months to deliver real improvements to our performance in A&E and reduce the size of our predicted deficit for this year by more than £2.5million. Read more. www.gov.uk/government/news/improvements-in-ae-and-financial-performance-at-kingston-hospital-recognised-by-regulator

Stars of Kingston Hospital 2015

The Hospital celebrated the hard work of their staff at our very first annual #TeamKHFT staff awards. The evening was the opportunity to recognise the outstanding work and congratulate dedicated staff across the Trust. Members of staff, patients, volunteers and carers had been invited to nominate staff. There were 14 award categories incorporating the Trust's values and the ceremony was hosted by TV presenter and local resident Angellica Bell and sponsored by Drake Medox, April Strategy, ISS Facility Services and Prime Care Solutions (Kingston).
